

SPRAY ON... BIRDS GONE!

READ THIS FIRST

Tips for Residential Users

- **Always read and follow all label directions.**
- Avian Control® Bird Repellent irritates bird's scent and taste buds. All ingredients in Avian Control® are "Generally Regarded As Safe" by the U.S. Food and Drug Administration and is non-toxic to birds.
- **Avian Control® Bird Repellent discourages birds from visiting treated areas. Several applications may be required for Avian Control® to be completely effective.**
- Avian Control® Bird Repellent may be used on listed crops up to the day of harvest. See the label for a complete list.
- **Avian Control® Bird Repellent should be sprayed in a fine mist. DO NOT spray to the point of runoff.**

Mixing guidelines for pump-up or electric sprayers:

	<u>1/8 acre</u>	<u>1/4 acre</u>	<u>1/2 acre</u>
Avian Control®	3-4 oz.	6-8 oz.	12-16 oz.
Liquid Dish Soap	1-1.5 oz.	2-3oz.	4-6 oz.
Water	1-2 gals.	2-4 gals.	4-8 gals.

Mix Avian Control® and liquid dish soap together first, then add to water.

- Avian Control® Bird Repellent may stain or darken some surfaces. Check first to determine its effect.
- **Avoid using Avian Control® Bird Repellent on dwellings such as homes, cabins, and other occupied buildings.**
