## Goose and Bird Repellent

Avian Migrate<sup>®</sup> will help keep the geese and birds away from your parks, homes, buildings and more.

### Product Description

Avian Migrate<sup>®</sup> Goose and Bird Repellent is an EPA registered goose and bird repellent that is effective against all types of nuisance birds and is suitable for use around humans, pets and terrestrial animals.

The product is non-toxic. Its active ingredient is found in nature and is also used extensively in food designed for human consumption. All Avian Migrate<sup>®</sup> ingredients are “Generally Regarded As Safe” (GRAS) by the US Food and Drug Administration (FDA) and are “Earth friendly.” Avian Migrate<sup>®</sup> contains a special colorant, visible only to birds, that lets them know that the area has been treated. This “teaches” unwanted geese and birds to stay away from treated areas in the future.

Avian Migrate<sup>®</sup> irritates bird's pain centers, creating an unpleasant sensation. Birds learn to avoid areas that have been treated and seek other locations. Avian Migrate<sup>®</sup> does not harm grass, shrubs and other vegetation and is not easily rinsed away by rain or sprinklers.

### Addressing Bird Flu

Avian Migrate<sup>®</sup> Goose and Bird Repellent has been proven to be an effective tool for protecting poultry farms from bird flu carried by aquatic birds. According to the Centers for Disease Control and Prevention (CDC) and the World Health Organization (WHO), “Aquatic birds are the primary natural reservoir for most subtypes of influenza A viruses.” Aquatic birds, such as ducks and geese, can transmit the disease to poultry through contact with infected water, droppings or secretions.

By using Avian Migrate<sup>®</sup> Goose and Bird Repellent, farmers can create a barrier that deters aquatic birds from entering their farms and contaminating the environment. This revolutionary product works by emitting a scent that is unpleasant to birds, discouraging them from entering the area. In addition, a special colorant that is only visible to birds acts as a sign to stay away from the treated areas. This EPA registered, non-toxic solution will not harm any vegetation

### Product Application

Avian Migrate<sup>®</sup> is suitable for all types of spraying equipment, and may be applied by agricultural or portable spray equipment.

Avian Migrate<sup>®</sup> Goose and Bird Repellent is an EPA Registered non-lethal liquid bird repellent that discourages geese and birds from congregating on golf courses, parks, athletic fields and around public buildings. Simply spray as directed – the effect is immediate and long lasting.

Avian Migrate<sup>®</sup> returns your grounds and environment to their naturally beautiful, clean condition.
